Comprehension

READ THE PASSAGE BELOW ANSWER THE QUESTION:

When we begin to study a phenomenon, we do not actually know what we are studying. In order to learn more about it, we formulate a hypothesis. It is important to keep in mind however, that until we thoroughly test our hypothesis and compare the results of our experiments with its predictions, we are not on solid ground. Of course, where there are gaps in our knowledge, we must have a hypothesis, but we must also test that hypothesis—rigorously and with an uncompromising regard for the truth. Where the hypothesis is inaccurate, we must do more research. The hypothesis of the industrial civilization was that by acquiring and consuming more things we would become more happy, fulfilled, and healthy. Every day, this seems less likely.

Question Description

Find the word or phrase from the passage that can be an alternative for “an untested idea suggested as an explanation for something”

A

hypothesis

B

phenomenon

C

experiment

D

prediction

E

None of the above

Correct Answer

A

READ THE PASSAGE BELOW ANSWER THE QUESTION:

On March 12, 1930, when the British still had a firm grip on India, Mahatma Gandhi and seventy-eight of his disciples strode out of the Sabarmati ashram towards the sea. In the twenty-four days that followed they walked two hundred miles, picking up more and more companions as village after village turned out to cheer the Mahatma and raise the new Indian flag. By the time they reached their destination, the seashore at Dandi, the group numbered several thousand. Earlier in March, Gandhi had sent a letter to the British viceroy protesting the Salt Act, which forbade Indians to make their own salt and left them dependent on a British monopoly for what is, in a tropical country, a necessity of life. The viceroy did not reply. To Gandhi this was the “opportunity of a lifetime.”

Question Description

Gandhiji wrote to the British viceroy because he was

A

against the British viceroy

B

going to make salt

C

leading the salt march

D

protesting the salt act

E

None of the above

Correct Answer

D

Question Description	In a certain code, 'CAT' is written as 'DBU'. How is 'DOG' written in that code?
A	EPH
B	EPJ
C	EQI
D	FQI
E	None of the above
Correct Answer	A
Marks	1

Question Description

Read the following passage and answer the question:

"While the invention of the printing press revolutionized the spread of knowledge, it also inadvertently facilitated the proliferation of misinformation. Before its advent, the laborious process of hand-copying manuscripts acted as a natural filter, as scribes were less likely to invest time in duplicating demonstrably false or trivial content. The digital age, with its instantaneous global communication, has amplified this paradox, making discernment more critical than ever. The challenge lies not merely in access to information, but in the cognitive labor required to separate fact from fiction."

According to the passage, what unintended consequence of the printing press is most amplified in the digital age?

A

The laborious process of hand-copying manuscripts

B

The reduced cost of knowledge dissemination.

C

The increased difficulty in distinguishing truth from falsehood.

D

The decline in the demand for skilled scribes.

E

None of the above

Correct Answer

C
