31

Comprehension

Read the following passage and answer the questions below:

It is believed by many that the pharma industry in our country preys on pestilence for profits. As the primary sector thrives under the benevolent monsoons, the food grain production may hike by hundreds of million tonnes. The generous use of pesticide is said to be a key factor in this race for a quantum jump in agricultural productivity in the country. On the basis of target species pesticides can be divided into four broad categories, namely, insecticides, herbicides, fungicides and rodenticides. Presently, insecticides contribute to nearly 75 per cent of the turnover of the pesticide industry. But in the West the trend is different: fungicides and herbicides account for the largest share of consumption in those countries.

Question Description

In the above passage “pestilence” is used to imply

A rise in bubonic plague

B increase in irritation

C proliferation of pests

D growth of disease

E None of the above

Correct Answer

C

Marks

1

32

Question Description

Each of the following questions contains a small paragraph followed by a question on it. Read each paragraph carefully and answer the question given below it.

The attainment of individual and organisational goals is mutually interdependent and linked by a common denominator - employee work motivation. Organisational members are motivated to satisfy their personal goals, and they contribute their efforts to the attainment of organisational objectives as means of achieving these personal goals.

The passage best supports the statement that motivation -

A encourages an individual to give priority to personal goals over organisational goals.

B is crucial for the survival of an individual and organisation.

C is the product of an individual's physical and mental energy.

D is the external force which induces an individual to contribute his efforts.

E None of the above

Correct Answer A
